

Test Name

ALKALINE PHOSPHATASE

Synonyms

ALKP, ALP, ALK PHOS

Test Code

106

Specimen Type

Serum or plasma

Preferred Container

Serum separator tube (SST)

Alternate Container

Red or green (heparin)

Minimum Volume**Temperature/Stability**

Room temperature: 7 days or Refrigerated: 7 days

Handling

Separate serum from cells within 2 hours

Reject

Anticoagulants other than heparin; grossly hemolyzed

Panel Includes
